

## Independence Declaration

We, Codelekh Solutions Pvt Ltd, hereby declare that we operate as an independent and impartial RNG (Random Number Generator) Certification Authority.

We affirm that:

1. We do not develop or distribute RNG software/products intended for certification under our own system.
2. Our certification process is based solely on objective testing methodologies and statistical evaluations using globally recognized standards such as NIST SP800-22 and Diehard tests.
3. The personnel responsible for RNG testing and certification are not involved in the development of any client software submitted for evaluation.
4. All client RNG data, algorithms, and reports are treated with strict confidentiality and are used exclusively for the purpose of certification.
5. Our procedures are documented, repeatable, and subject to internal quality checks.

This declaration serves as a statement of our impartiality, transparency, and commitment to integrity in RNG certification services.
